

# A Comprehensive Mitigation Plan

*For the people of Lemhi County.*

Usable strategies for hazardous fuels identification,  
High-risk areas, fuels reduction, and community education.

---

## **Planning Process Lemhi County Wildland Fire Interagency Group**

The Lemhi County Wildland Fire Interagency Group is a committee comprised of a wide variety of organizations and members of the community. The committee was established to collect information on fire wildland fire hazard risks in Lemhi County and the surrounding infrastructure area. Information was collected and reviewed by the Wildland Fire Hazard, Risk Committee, on high impact area for probability of wildland fires. After reviewing past fire history of Lemhi County, the committee was able to start working on the Wildland Fire Hazard Risk and Mitigation Plan.

Through a collaborative effort from the Fire Departments Emergency response, BLM, Forest Service, County Commissioners, and citizens of the county, the group identified specific needs to assist in make the plan a working plan and to form a blue print in aiding and assisting in the implementation of the fuels reduction , education, and preparedness,/fire suppression response for the citizens of Lemhi County.

This Plan has been designed with a format to have the ability to reduce or expand. As in nature and wildland fire that is continually changing, Lemhi County's Wildland Fire Mitigation Plan has the ability to change.

Lemhi County, Idaho involved the following organizations and groups to formulate a Hazard risk and mitigation plan to address those portions of the county where populated areas are vulnerable to the threat of wildland fire. The following groups were involved:

**Lemhi County Commissioners, Lemhi County Fire Protection District #1
